ReThink® Single Use Plastic 2021

Rethink

Leading
Sustainable
Change

Maxpack

Reduce.
Re-use.
Replace.

Reduce

We need to find ways to reduce the amount of single use plastics that are disposed of each day across the UK.

Re-use

Where possible extend the life of packaging by utilising returnable and re-usable products.

Replace

Can't reduce the amount of packaging or utilise re-useable products? Find an alternative product that is produced from sustainable raw materials and is compostable or recyclable.

Leading Change 2021

Since 1996 we have innovated with key packaging products to reduce the impact on the environment. The cost to the consumer and cost to the environment is a major factor when we are developing new products. The result is packaging that helps the world's leading companies improve their environmental, ethical and social impact.

Research & Development

Spherical approach to the needs of the customer, journey of the product and the sustainability of the material.

Sustainability

In every business sector we need to integrate sustainability into our strategy. We have to act.

Support

Change is a challenge. It requires knowledge and experience to make it happen. We promise to support.

PAPERBLE

Paperble™ is easy to dispense, cut and wrap – making you and your products stand out from the crowd who use single use plastics to wrap their products. Dispense. Wrap. Reduce Plastic.

- 100% compostable
- Made with paper from a sustainable source
- Highly protective patented bubble design

J5522	330 x 270 x 20–75mm	White outer, extra security seal & tear strip	25	
J1642	440 x 330 x 80mm		25	

Protecting your production has always been at the heart of the Maxpack name.

In 1976, Edwin Maxim launched his family's firm providing bespoke framing services to retailers, photographers, interior designers and fine art publishers. In 1996 Maxpack, with the vision of providing the retail industry with packaging consumables, was born out of that original family business.

Today, we continue to evolve our services and focus on how we can best supply British Industry with optimal packaging solutions and systems.

Reduce waste. Protect the environment. Maximise cost savings. Eliminate out of stock panics. Release space. Minimise downtime and increase productivity of the packer.

We look forward to the opportunity of working with you.

The Maxpack Team

Protecting Your Production®

Environmentally sustainable industrial packaging products, packaging systems and on-site stock management for the manufacturing sector.
